Name project

**EKOMARINA RYN**

Category Certification Criteria

- Energy and environmental policies
- Infrastructure policy;
- Quality of urban life Policy;
- Agriculture, tourism, crafts;**
- Hospitality, awareness and training;
- Social cohesion.

Summary project

***Ekomarina Ryn is located on the lake Ryńskie on the main street of the city. The building houses the harbor master's office, social and economic facilities for sailors and port workers. The most important part of the investment is possibility of receiving liquid waste and solid with yachts, as well as the possibility of minor repairs and maintenance of yachts. There is also a slip for launching equipment and toilets, showers, laundry, drying room, conference and training room.***

#### Goal project

**The project has been realized: Construction of a mini harbor sailing - two-storey building with the top tier in the attic with an arcade from the shoreline of the lake, equipped with sanitary installations and the entire technical infrastructure.**

- 1. Construction of two floating bridges with berths for 60 yachts together with the installation of electricity and water supply.**
- 2. Construction of a permanent bridge.**
- 3. Construction of a slip launching boats and floating equipment with a drawbridge.**
- 4. Reconstruction and construction of technical infrastructure, electrical connections, area lighting and external electrical, sanitary sewer connections, sewage system and bilge water from boats, waste collection system from yachts and developed area, storm water drainage.**
- 5. Reconstruction and construction of a walking - cycling path with elements of landscaping and green areas.**

#### Result project

**The result of the project is creation of the Ekomarina Ryn - ecological mini harbor sailing with a reception systems and a waste segregation in selected areas of the Warmia and Mazury.**

#### Finance (costs and benefits)

**The project was implemented under: Regional Operational Programme Warmia and Mazury for 2007-2013  
Total Project Value: 6,292,185.92 zł  
The value of the contribution of the European Union: 4,809,873.45 zł**

#### Staff (time use and saving)

**Duration of the project: 2012-2013**

Additional information (if necessarily)

***The project has significantly contributed to the improvement of the tourist attractiveness of the city Ryn. In summer 2013 years after the project completion, our city was visited by around 30,000 people in particular arriving by ship and mooring in the harbor. This data confirms the Registry of the Ekomarina management. The completed project fits on the existing Masurian with infrastructure. Activities in Ryn fit well on the founding of the International Association of Towns of Cittaslow, the International Network of Cities of the Good Life in policy and environmental protection.***
