Name project

Recreation path around the Lead lake in Ryn along with the construction of the beach and a fishing pier

Category Certification Criteria

- Energy and environmental policies
- Infrastructure policy;**
- Quality of urban life Policy;
- Agriculture, tourism, crafts;
- Hospitality, awareness and training;
- Social cohesion.

Summary project

The picturesque location of the Lead lake, the sites with the zone of silence, encouraged to creation of a such place where residents and visitors could rest and relax. To this end the surface path was hardened around the lake and modernized platforms on the town beach, built sanitary facilities, built sheds with a place for bonfire, built a fishing pier. Nearby there was created a place where you can sell fish products and other traditional food.

Goal project

The main goal was created an area for active and passive recreation for residents and visitors to the city Ryn.

Result project

The path length of more than 4 km is a great place for hiking and cycling. This way you can walk around the beautiful and picturesque lake Lead. The path is certainly one of the Ryn main tourist attraction. You can truly feel the Masurian climate and the real and direct contact with nature. The Lead lake beach is a great place to families for active recreation. Gentle descent to the lake with sand allow children to play and stay safe by the water. Construction of a fishing pier allows anglers to rest and satisfaction with fishing. A land development at the beach with the toilets provided the perfect conditions for vacation. Near the beach were built roofing and a bonfire place. There was also built a court for volleybal and any other sports. Also it was prepared an outdoor gym equipment where you can improve fitness and active leisure.

Finance (costs and benefits)

**The construction of the path recreation and leisure funded Rural Development Programme 2007-2013
Total cost of the task was 1,362,000 zł
Funding was 535,000 zł**

**The construction of the beach and pier fishing was funded by the European Fisheries Fund, providing investment in sustainable fisheries
Total cost was 1,025,347.86 zł
Funding was 708,573.72 zł**

Staff (time use and saving)

2011-2013
