Summary project

From 20th September 2016 to 24th September 2016 there was a Cittaslow week in Jeziorany.

During the week at schools there were classes to develop a subject of Cittaslow.

Primary school students became acquainted with the renewable energy sources and they learned about the sources of renewable energy which occur in Jeziorany. They also had a task to solve crossword puzzles and make some paintings and drawings that symbolized the correct answers to the given crossword puzzles.

The aim of the junior high school students during classes was to mark on the map of Poland every Polish town that belongs to the Cittaslow network, and to assign to each of the town a proper geographical land in which the town is situated.

There were also open outdoors photography works hops – students were photographing monuments in Jeziorany and they were studying the secrets of photography.

They learned how to accurately give the character and visual appearance of the photographing objects. How to set the parameters for the objects and how to use the light and the weather.

The Vocational School Students during the Cittaslow week visited all the monuments and statues in Jeziorany. They also took part in a field game „ ... A long time ago, in Jeziorany " in which they had to solve some puzzles (ex.to find a well-known place in a town a ask citizens if they know why the place is famous).

Students had to do this in a certain time.

This way students learned the history of the town, its plan and visited unknown places.

Field game is an idea to discover once place of living in a new, dynamic, attractive and friendly way to all participants.

It plays both children and adolescents.

Preschoolers as well as all the schools' students participated in a game organized by the Sports and Recreation Centre in Jeziorany called „ Dance with us-Snails"
