

ZweiTälerSteig
Wo Dein Herz aufgeht.

The ZweiTälersteig Trail...

... is a great challenge: 106 kilometres around ZweiTälerLand - up and down - and a difference in altitude of 4,120 metres.

The ZweiTälersteig trail takes you to the loveliest and most untouched spots in the Elz and Simonswald valleys. To peaks and vantage points, to natural beauty spots, to lovely landscapes or the patchwork of forests and fields on the gently rolling hills of the Black Forest. And of course to the friendly people from ZweiTälerLand who are still as warm and hospitable as ever.

The ZweiTälersteig trail is not an easy stroll. Daily stretches of up to 26 km with a difference in altitude of 1,200 metres can only be managed if you are fit and you need strong legs for the descents of up to 1,500 metres. We recommend that you walk the ZweiTälersteig trail in stages over five days. Each stage has its own character ranging from wild and steep in the south and east to gentle mountain stretches with panorama views in the north and west.

The ZweiTälersteig trail is certified by the German Hiking Association as a "Qualitätsweg Wanderbares Deutschland", which roughly means "Quality Trail in Walkable Germany". This seal lays down standards for hiking trails that apply throughout Germany. On the occasion of the public's selection for a German hiking magazine the ZweiTälersteig Trail obtained the prize for the most beautiful trail in the category „routes“ in 2019.
